Summary

Computer Science undergraduate with strong foundations in Data Structures and Algorithms, proficient in solving complex problems and writing optimized code. Proficient in designing and developing scalable applications with a focus on performance, usability, and maintainability.

Education

Bennett University, Greater Noida B.Tech – CSE, CGPA: 8.97	(2023–2027)
City Montessori School, Lucknow Class XII – 96.7%	(2023)
City Montessori School, Lucknow Class X – 91.6%	(2021)

Technical Skills

Languages: English, Hindi, German
Programming Languages: Java, Python, C++, JavaScript, Rust
Frameworks: Node.js, Next.js
Tools & Platforms: Git, IntelliJ IDEA, Visual Studio Code
Databases: Firebase, MongoDB
Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems
Other: UI/UX Design, Agile Methodologies, Cloud Computing

Projects

You Matter Now – Mental Health Platform <i>React, Tailwind CSS, TypeScript, Gemini API, LangChain, Hugging Face</i> Created a safe space with chatbot, self-assessment, doctor suggestions, and journaling. – AI-powered support: 24/7 empathetic chatbot using Gemini API and LangChain; 1,000+ users monthly. – Personalized care: Tailored self-assessments with 85% user satisfaction via feedback surveys. – Accessible healthcare: Geolocation + ratings for doctors; increased successful bookings by 30%.	(Jan 2024 – Apr 2024)
AI-Based Sign Language Translator <i>Python, CNN, MediaPipe, TensorFlow</i> Real-time sign language recognition system translating gestures into text. – Gesture recognition: Trained a CNN model on hand landmark data extracted using MediaPipe, achieving 92% recognition accuracy. – Real-time inference: Processed live video input with latency below 100ms for seamless translation. – Accessibility impact: Enabled real-time communication support through AI-driven translation, improving accessibility for users.	(Aug 2025 – Nov 2025)

Professional Experience

Evoc Labs, India: Full Stack Developer Intern – Developed responsive web applications using React.js and TypeScript, improving page load performance and user experience. – Built reusable and maintainable UI components, reducing development time by 30% and enhancing code scalability. – Collaborated with backend and design teams to deliver 10+ production-ready features aligned with business requirements.	(Jan 2026 – May 2026)
---	-----------------------

Other Work Experience

CodeChef BU, Greater Noida • Organized 10+ technical events and coordinated cross-functional teams to drive community growth.	(Social Media Head — May 2024 – Feb 2025)
Career Advancement Club, Greater Noida • Conducted 5+ workshops and collaborated with industry professionals to support career development initiatives.	(Member — May 2024 – Present)
Zenevia Tech Fest, Greater Noida • Managed social campaigns, increasing online engagement by 60%.	(Volunteer — Feb 2024)

Certifications

- Data Structures – University of California, San Diego (Coursera)
- Getting Started with Accelerated Computing in Modern CUDA C++ – NVIDIA
- Docker for the Absolute Beginner – Packt
